

Okay, here's a dark-themed A4 cover page design for a Python subject using HTML and CSS. I've focused on a clean, modern, and tech-inspired look with a touch of Python's classic colors. **Key Features:** **A4 Sizing:** Designed to mimic an A4 page. **Dark Theme:** Deep dark background with contrasting light text and subtle accents. **Python Branding:** Uses colors inspired by the Python logo (blue and yellow/orange) and a subtle code-like background pattern. **Clean Layout:** Clear separation of title, subtitle, and author/course details. **Google Fonts:** Uses 'Montserrat' for a modern feel and 'Fira Code' for a subtle programming touch. --- ### 1. `index.html` (HTML Structure) ```html

Unlocking the Future with Code

Student Name: [Your Name]

Student ID: [Your ID Number]

Course: [Your Course Name]

Institution: [Your Institution Name]

Submission Date: [DD Month YYYY]

Lecturer/Professor: [Lecturer's Name]

``` --- ### 2. `style.css` (CSS Styling) ```css /\* General Resets and Base Styles \*/ \* { box-sizing: border-box; margin: 0; padding: 0; } body { font-family: 'Montserrat', sans-serif; background-color: #0d0d0d; /\* Very dark background for the outside \*/ display: flex; justify-content: center; align-items: center; min-height: 100vh; /\* Full viewport height \*/ color: #e0e0e0; /\* Default light text color \*/ } /\* A4 Page Container \*/ .cover-page { width: 210mm; /\* A4 width \*/ height: 297mm; /\* A4 height \*/ background-color: #1a1a1a; /\* Darker grey for the page background \*/ display: flex; flex-direction: column; justify-content: space-between; /\* Distribute space between header, main, footer \*/ padding: 30mm 25mm; /\* Top/bottom, left/right margins \*/ position: relative; overflow: hidden; /\* Hide anything that goes out of bounds \*/ box-shadow: 0 0 30px rgba(0, 0, 0, 0.6); /\* Subtle shadow for depth \*/ } /\* Background Pattern (subtle code-like effect) \*/ .cover-page::before { content: ""; position: absolute; top: 0; left: 0; width: 100%; height: 100%; background-image: linear-gradient(rgba(48, 105, 152, 0.03) 1px, transparent 1px), /\* Python Blue \*/ linear-gradient(90deg, rgba(255, 212, 59, 0.03) 1px, transparent 1px); /\* Python Yellow \*/ background-size: 20px 20px; opacity: 0.8; z-index: 0; /\* Behind other content \*/ } /\* Header Elements \*/ .header-elements { display: flex; justify-content: space-between; align-items: center; margin-bottom: 20mm; /\* Space below header \*/ position: relative; z-index: 1; /\* Above background pattern \*/

```

/ } .python-icon { font-size: 4em; / Larger Python snake icon */ line-height:
1; color: #ffd43b; /* Python yellow accent */ text-shadow: 0 0 10px rgba(255,
212, 59, 0.5); /* Subtle glow */ } .subject-tag { font-family: 'Fira Code',
monospace; /* Monospaced font for code feel */ font-size: 1.1em; color:
#888888; /* Muted text */ letter-spacing: 1px; } /* Main Content (Title and
Subtitle) */ .main-content { text-align: center; flex-grow: 1; /* Allows it to
take up available space */ display: flex; flex-direction: column; justify-
content: center; /* Center vertically within its space */ align-items: center;
position: relative; z-index: 1; } .main-title { font-family: 'Montserrat', sans-
serif; font-size: 5.5em; /* Very large title */ font-weight: 900; /* Extra bold */
color: #306998; /* Python blue accent */ text-shadow: 0 0 20px rgba(48,
105, 152, 0.7), 0 0 40px rgba(48, 105, 152, 0.4); /* Strong glow */ letter-
spacing: 5px; margin-bottom: 15px; } .subtitle { font-family: 'Fira Code',
monospace; font-size: 1.6em; color: #e0e0e0; font-weight: 300; letter-
spacing: 2px; margin-top: 10px; max-width: 80%; line-height: 1.4; } /* Footer
Information */ .footer-info { display: flex; justify-content: space-between;
padding-top: 20mm; /* Space above footer */ border-top: 1px solid rgba(255,
255, 255, 0.1); /* Subtle separator line */ position: relative; z-index:
1; } .info-block { flex: 1; line-height: 1.8; } .info-block p { font-family:
'Montserrat', sans-serif; font-size: 0.95em; color: #b0b0b0; /* Slightly lighter
than main text */ } .info-block p strong { color: #e0e0e0; /* Emphasize
labels */ font-weight: 700; } /* Print Specific Styles */ @media print { body
{ margin: 0; padding: 0; -webkit-print-color-adjust: exact; /* Crucial for
background colors */ print-color-adjust: exact; background: none; /* No
outside background for print */ } .cover-page { box-shadow: none; /* No
shadow on print */ border: none; width: 210mm; height: 297mm; page-
break-after: always; /* Ensure this page is separate */ } } ```` --- ### How to
Use: 1. Save HTML: Save the first code block as `index.html`. 2. Save
CSS: Save the second code block as `style.css` in the same folder as
`index.html`. 3. Open in Browser: Open `index.html` in your web
browser. 4. Edit Placeholders: Replace `[Your Name]`, `[Your ID
Number]`, `[Your Course Name]`, `[Your Institution Name]`, `[DD Month
YYYY]`, and `[Lecturer's Name]` with your actual information. 5. Print to
PDF (for A4): * Go to File > Print in your browser. * Destination:
Select "Save as PDF" or your printer. * Paper size: Ensure "A4" is
selected. * Margins: Set to "None" or "Default" (the CSS already defines
the internal padding). * Background graphics: Make sure this option is
checked for the dark theme and background patterns to show up. * Click
"Save" or "Print". This will give you a professional, dark-themed A4 cover
page ready for your Python assignments!
